The love affair with ornamental fencing began hundreds of years before the company, Ultra Aluminum™, was started. Metal fence was beautiful and majestic, but made from a material that was destined to rust and crumble — iron. As good as the coatings technologies evolved through the ages, nothing could protect that fragile metal from deteriorating.

Ultra Aluminum™ ornamental fencing retains that impressive look of wrought iron, but is designed to withstand the tortures of weather, pollution, chemicals and savage environments. Ultra started with humble beginnings in 1996 and a desire to replicate the intricate details of historic ornamental iron fences, using materials that are just as strong, but stand up to the variations of weather and climate with long-lasting durability. Traditional or contemporary, elaborate or simple design — Ultra has a high quality, American-made fence to fit the bill.

## Superior Product Design for Ultra-Strength

### High-strength Ultrum™ Alloy, Made in the USA

It's as strong as steel, but will never rust. Ultrum is a 6005-T5 alloy, with a minimum ultimate strength of 35,000 psi.

### Factory assembled, with stainless-steel fasteners

For structural integrity and strength you can count on.

### Powercoat™ finish—panels, gates, posts and designer accessories

Our exclusive Powercoat™ finish is twice the thickness and hardness of a typical acrylic, baked enamel, or “wet paint” finish, making it more durable, fade-resistant and scratch-resistant than other coatings.

### All gates are fastened and 100% welded at all connections and joints

Designed to stand up to the rigors of everyday use.

### Finials, butterflies, scrolls and circles take your fencing to a new level

Combine these heavy-duty cast accessories for truly distinct designs.

### Multiple grades of pickets and posts for every performance level

5/8" Square Pickets, 3/4" Square Pickets, 1" Square Pickets, and exclusive Ultra Fluted 5/8" x 1" Pickets

### Ultra Signature™ Railing has an innovative shape and design

We have a comprehensive line of code-compliant railing available in pre-built or easy to assemble sections.

## What are the benefits of Ultra Aluminum™ ornamental fencing?

Ultra Aluminum™ ornamental fences add elegance, sophistication and style to any setting. They're available in a range of colors—Black, Textured Black, Bronze, Textured Bronze, Beige, Textured Khaki, White, Textured White and Forest Green. Standard finishes are smooth and shiny, and our Textured finish imparts a matte texture. And, we can customize a paint finish to match your home's design, siding, accessories or landscaping. Customization is a big asset when purchasing an aluminum ornamental fence. You can add mid-rails, circles, scrolls, and finials. Circles, butterflies and scrolls are installed between rails, while finials dress up the tops of pickets. Pickets above the top rail can be straight, staggered, concave or convex. With slight modification, they can also provide trusted security. You can add stronger, larger and taller pickets, and reinforced rails. Traditional gate latches and locks can be specified, for added protection.

UAF 200 with Ball Post Caps.

# Ornamental fencing

The clean lines of the UAS 100 fence go well with the architecture of this modern home.

**Available in:** Residential Series, Residential Series Premium, Commercial Series and Commercial Series Premium

**Ultra's Premium Grades** have a reinforced double-wall rail with hidden fasteners.

**Standard Sections** are 6' wide x 3', 3'-1/2", 4', 4'-1/2", 5' or 6' high. Sections come fully assembled. Custom width or height sections are available.

**Pickets:** Residential 5/8" square x .050; Commercial 5/8" square x .055

**Spacing between Pickets:** Residential standard 3-13/16" and optional 1-5/8"; Commercial standard 3-5/8" and optional 1-1/2"

**Fasteners:** Stainless Steel

**Horizontal Rails:** Residential 1-1/8" x 1" with .080" side walls and .062" top walls; Commercial 1-1/4" x 1-3/8" with .088" side walls and .065" top walls

## How do Ultra Aluminum™ fence and railing products compare to similar steel or wrought iron products?

The biggest advantage to an Ultra Aluminum™ product is its maintenance-free characteristics. Unlike steel or wrought iron, our products won't rust, and our Powercoat™ finish is guaranteed for life. And strength is never compromised with an Ultra product. Its high-strength Ultrum™ Alloy is as strong as steel and has been tested to withstand hurricane wind gusts up to 259 mph.

**From Left to Right:** The Circles on this Bronze UAF 200 add a decorative touch, and the shade complements the home's color scheme; Tri-Finials and Decorative Circles on this UAS 100 Estate Gate welcome you to this impressive manor; Spear top UAS 100 ornamental fence encloses these charming Antebellum homes.

## Aluminum Swimming Pool Fences

Fencing and railing by Ultra Aluminum™ are designed to meet all the stringent BOCA swimming pool safety codes. Several residential picket fence styles and the Eclipse™ Privacy style are specifically designed to comply with BOCA code. The most important compliance factors for ornamental aluminum fence are:

Fence must be at least 48" (4 ft) tall.

The mid-rail must be at least 45" above the bottom rail.

The spacing between pickets must be less than 4".

The space between the bottom rail and the ground must be less than 4".

Gates must be self-closing, self-latching, and open outward (away from the pool area).

The opening mechanism of the latch must be at least 54" above ground.

Always check local code before ordering and installing pool fencing.

*Ultra Aluminum™ assumes no liability for improper installation. Code compliance is the sole responsibility of contractor.*

Eclipse VP™ combines the strength of extruded aluminum top, middle and bottom rails—available in all 9 standard colors and fits any standard 7/8" x 6" T&G vinyl board—with rich variegated color vinyl panel inserts.

Eclipse™ fencing in White is the ideal pool fence for security, protection and privacy.

Ball Caps and distinctive Pressed Spears add elegance to this UAF 250 pool fence.

UAF 250

Handsome UAB 400 with Ultra Picket ensures a safe pool environment.

How to tell if you're getting a genuine fence, rail or gate from Ultra Aluminum™?

It's in the details. The inner strength of the aluminum alloys we use. The quiet strength of the extra ribs inside Ultrarails™. The depth and dependability of our Powercoat™ finish. We push everything to the edge.

**From Top to Bottom:** New England colonial-style home looks smart with this UAS 300 concave Spear-Top in Satin Black; UAF 250 with Tri-Finials in Forest Green is a perfect complement to this home's green shutters; UAS 100 fence adapts to the landscaping of the front yard of this Greek Revival paradise.

**From Top to Bottom:** Neither rain nor sleet nor snow will harm the appealing Satin Khaki finish on this UAS 101 fence; Our Powercoat™ finish protects the Beige color of this UAS 350 from the hot sun; Strong winds and punishing weather won't diminish the strength and beauty of this UAF 200 fence; This UAB 200 fence endures sun, moisture, and chemicals, and still looks fabulous.

## Changing weather extremes are no match for Ultra Aluminum™

Homeowners want a fence they can rely on, not only for protection, but for good looks year after year. Our fence has been tested to withstand wind gusts of up to 259 mph. And the Powercoat™ finish maintains higher levels of UV protection, so the gorgeous color won't dull or fade due to sun, rain, snow or other environmental factors.

### Colors

Fencing, railing and gates from Ultra Aluminum™ are available in nine classic colors as well as custom specified hues. All colors are applied with our exclusive Powercoat™ finish to resist harsh weather and heat.

Colors shown represent an approximate comparison and may vary slightly from actual product color.

# Uniquely You...

decorative accents that show off your personal style

**Decorative Circles** are positioned and then locked between the top two horizontal rails and the vertical pickets of a three-rail fence. Fence sections come factory-assembled with circles, which alters the spacing of the top two horizontal rails, and therefore must be specified when ordering. Circles are individually cast, which provides for a cleaner paint finish.

**Butterfly Scrolls** can be positioned on the vertical pickets between the top two horizontal rails of a three-rail fence. Fence sections come factory-assembled with Butterfly Scrolls, and can be added to previously built sections.

**Large Scrolls** are suitable as gate accents or on taller fence panels. Scrolls are notched to fit a specific size of picket. Large Scrolls are sold separately and can be added to any fence style. Scrolls must be specified at the time of purchase. Size: 16" long by 7" wide (nominal).

**Decorative Finials** can be used in place of pressed spears, for an elegant touch. Ultra offers a Quad-Finial and a Tri-Finial design, both of which come factory installed.

**Decorative Ball Caps** may be used in place of a standard cap on fence posts.

**Solar Light Caps** automatically charge during the day and shine at night. For use with 2" and 2 1/2" square posts; in Black only.

**Left:** The ornate flourishes on this Victorian house are enhanced by the Quad-Finials, Butterflies and Scrolls of this UAS 100
